Sir:

Responsive to the Office Action mailed May 28, 2002, please amend the above-identified application as follows:

IN THE SUBSTITUTE SPECIFICATION:

Please replace the paragraph beginning at page 11, line 24, with the following rewritten paragraph:

DI
In connection with the secondary object of the invention, the present invention provides a rotor in a permanent magnet motor in the form of a composite cylindrical permanent magnet block having an increased height, which comprises at least one assembly of at least two, or preferably, two to ten cylindrical unit permanent magnets coaxial stacked one on the other so as to be rotationally fixed relative to one another, with each having magnetic anisotropy in a single diametrical direction perpendicular to the cylinder
